

## ***Pesticide Watch Ask The Expert webinar*** **with PhD student, Brady Hamilton**

**What other nasties are hiding in our waterways?**

**Where are they coming from and what impact could they have?**

**Did you participate in Pesticide Watch this year and curious about the results ?**

**Submit your questions to be answered by our expert !**

Brady Hamilton is a Deakin University PhD student gathering baseline data to gauge the extent of pesticide contamination in our waterways

### **1. Tune into the pesticide issue first by viewing;**

- a. [Introduction to Brady's research project](#) (1min38 video)
- b. [Do we really need pesticides ?](#) (5 min video)

### **2. Decide on 3 important questions you'd like to ask Brady – about himself, his research, pesticides or what we can do next . . .**

(these will be asked on your behalf during the interview with the recording made available for on-demand viewing)

### **3. Email questions labelled with student, class and school name to [riverdetectives@nccma.vic.gov.au](mailto:riverdetectives@nccma.vic.gov.au) by Tuesday 24<sup>th</sup> October**
