

H5 bird flu has been detected in Australia.

Five simple ways you can help prepare pets and wildlife for H5 bird flu

Be prepared
birdflu.gov.au

1.

Keep dogs on a leash in areas where wildlife are present

2.

Prevent contact between your pets and wildlife, and don't leave their food or water accessible to wildlife

3.

Keep cats indoors or in secure enclosures to prevent them interacting with wildlife

4.

Always wash your hands with soap before and after touching birds and other animals

5.

If you see a group of sick or dead wildlife:
Avoid contact and keep your distance.
Record the date, time, location and take photos.
Report it to the Emergency Animal Disease Hotline: **1800 675 888**
