

H5 bird flu has been detected in Australia.

Four simple ways to help stop the spread of diseases in wildlife

Be prepared
birdflu.gov.au

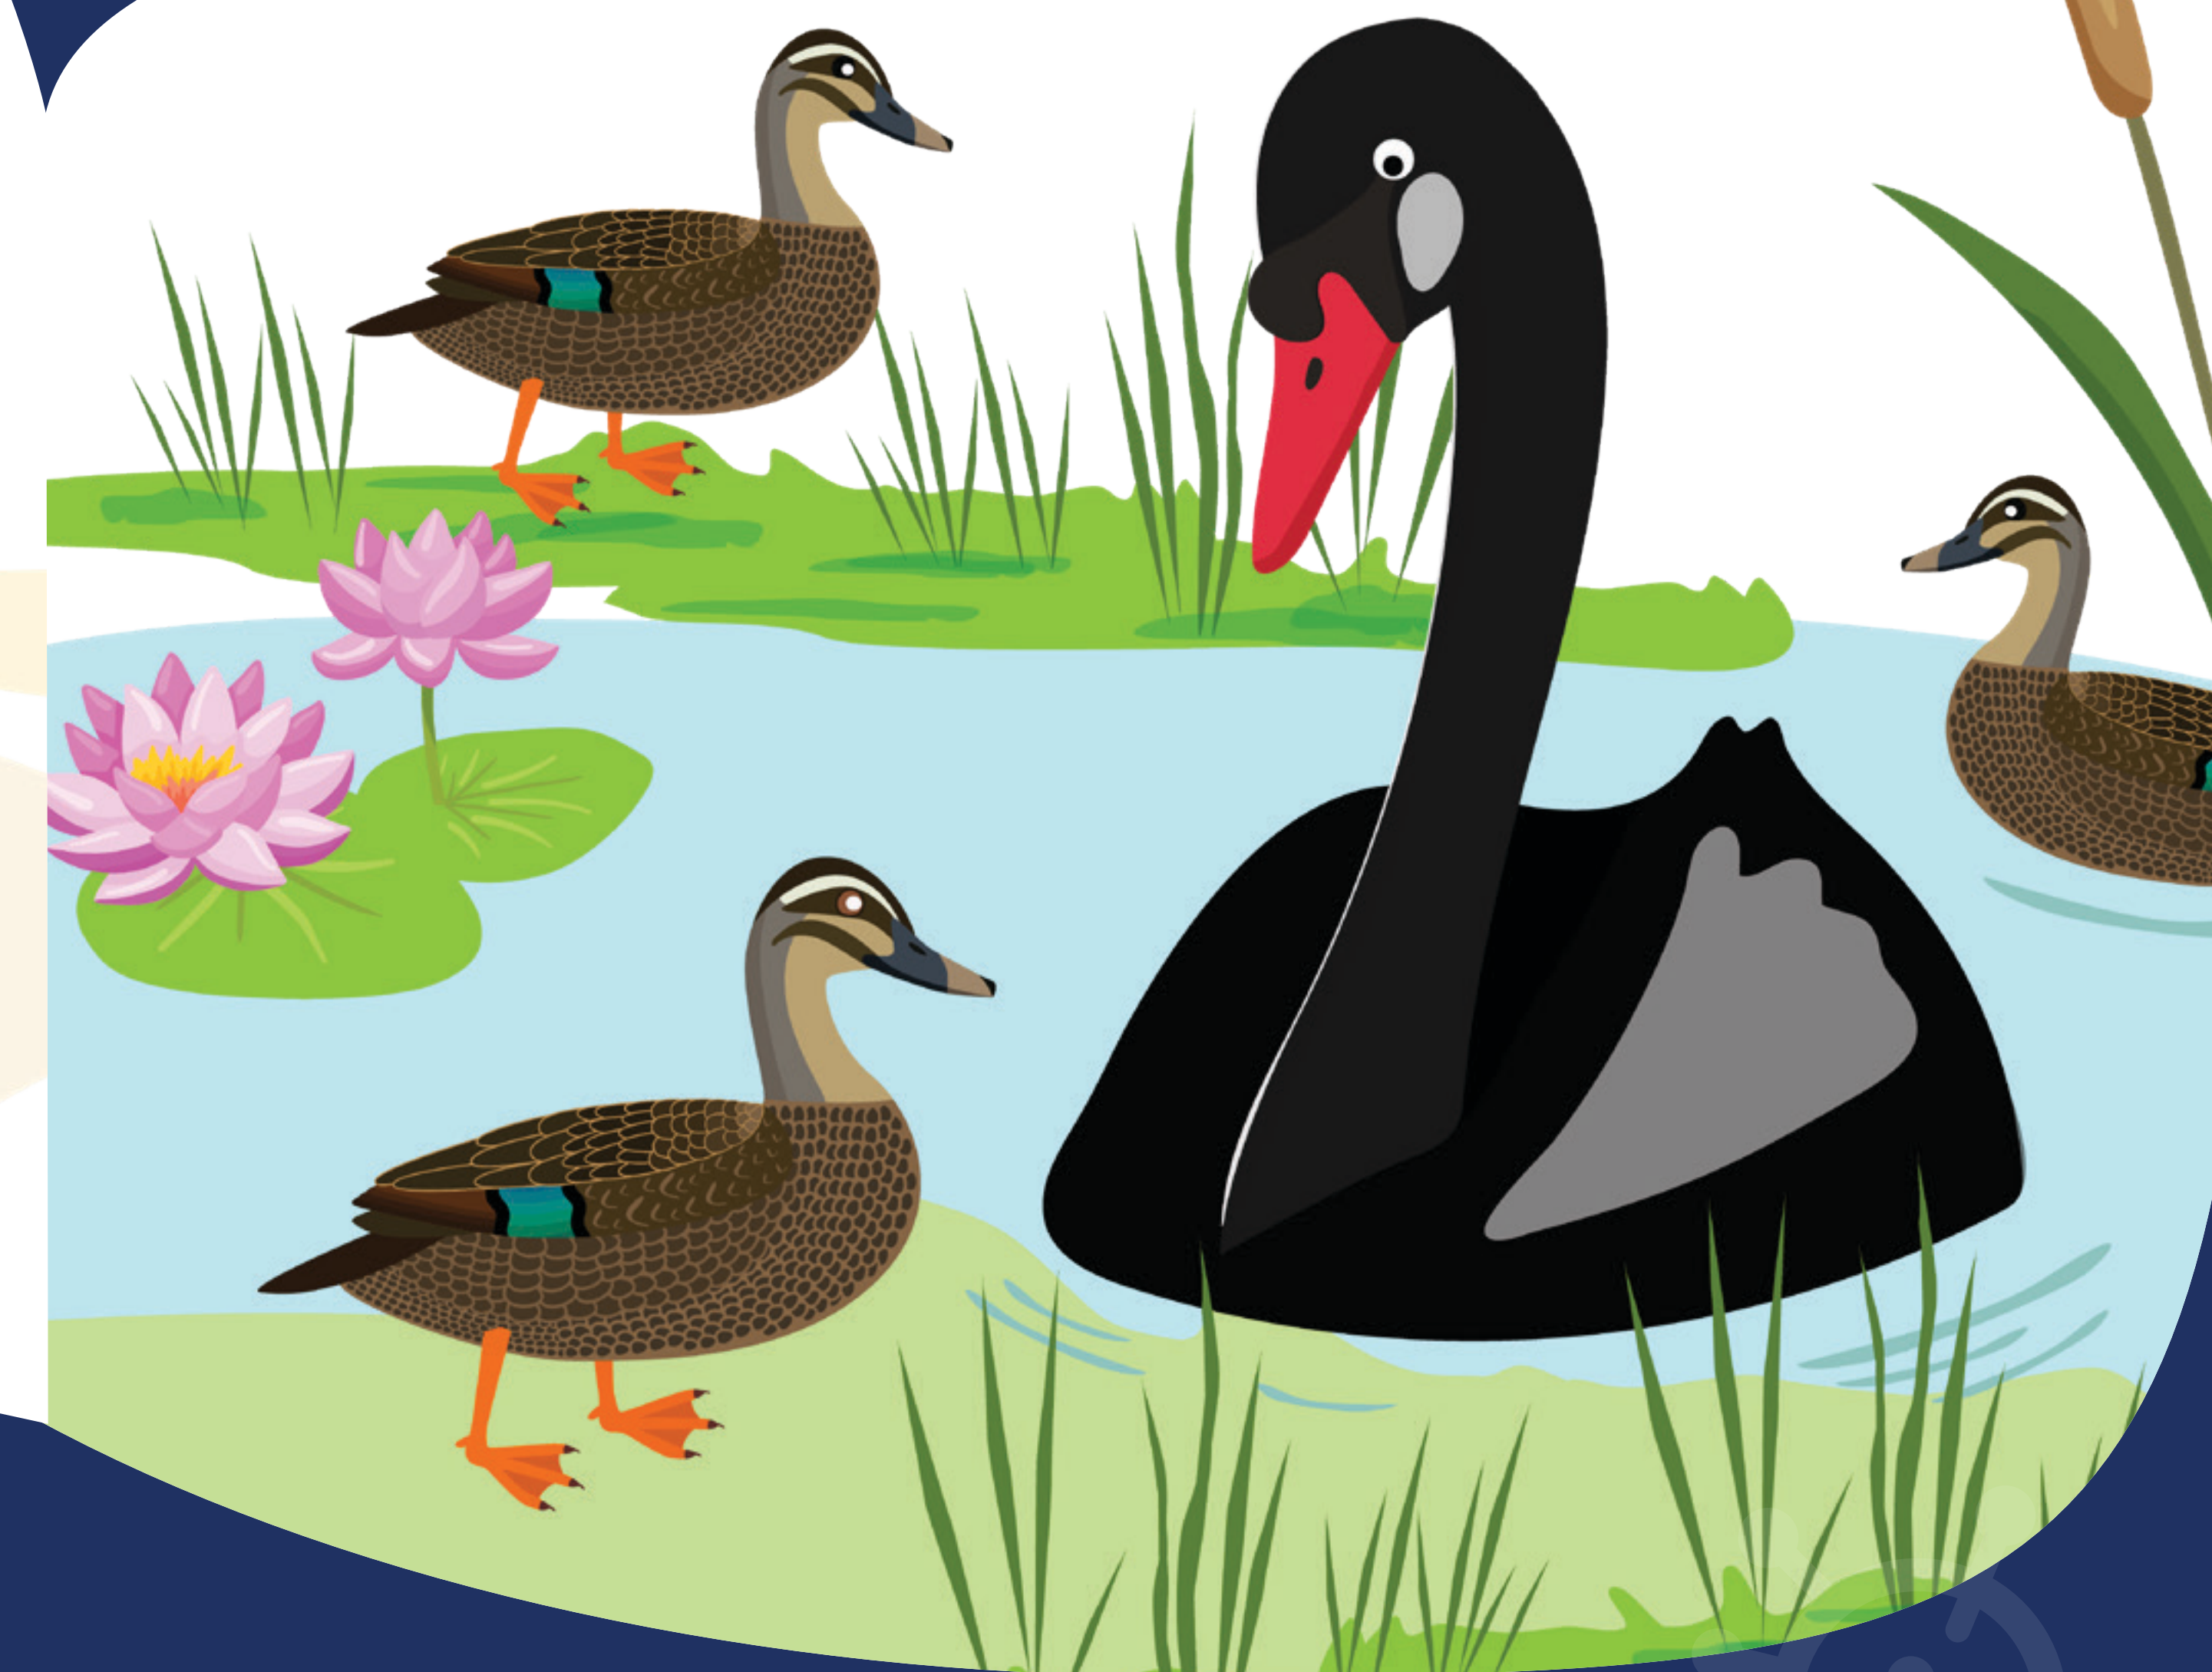

1.

Clean your shoes and clothes before and after visiting national parks, nature reserves or farms

2.

Don't feed wildlife to help them with their social distancing

3.

Keep pets away from wildlife to reduce disturbance and spread of disease

4.

If you see a group of sick or dead wildlife:
Avoid contact and keep your distance.
Record the date, time, location and take photos.
Report it to the Emergency Animal Disease Hotline: **1800 675 888**
